

## Features

Project a professional image with minimal investment.

Process calls more efficiently with exceptional features like integrated voicemail.

Benefit from an audio help feature and caller ID.

Protect your initial investment, adding features and functionality as your business needs change and grow.

Improve customer service through more efficient call and message handling.

Minimize training costs with the audio help feature (*requires k3 hard drive voicemail*).

## Digital Hybrid Phone System

The Sprint k-Series™ is a fully integrated digital phone system loaded with sophisticated features providing powerful, scalable technology at an extremely affordable price.

### Future-richness, reliability

The Sprint k3 paves the way for your future by combining functionality and value, allowing you to add new capabilities and capacity as your business needs grow. The k3 is ideally equipped to help your company project a professional image with minimal investment.

This digital key system comes equipped with six CO lines, 10 digital stations, and two analog ports, with the ability to expand to 24 CO lines, 46 digital extensions, and 18 analog ports.

### Customizable

With hundreds of standard and advanced features, the fully digital k-Series key system is ideally equipped to help your company process and manage your telecommunications requirements professionally and affordably.

### Flexibility and Value

The 14-button speakerphone is an affordable option, equipped with 14 dual-color LED programmable buttons and a high-quality speaker. A three-position desk pedestal also serves as a wall-mounting bracket.

The 28-button telephone offers three interactive menu-keys, 28 dual-color LED programmable buttons, a high-quality speaker, a built-in headset jack and a high contrast LCD. A three-position desk pedestal also serves as a wall-mounting bracket.

**Sprint k3 Phone System Functionality****Integrated Voicemail\***

Eliminate worries about losing calls or missing opportunities with Sprint's advanced eight-port voicemail featuring auto attendant, dial by name directory, and flexible message handling. These features come without sacrificing any digital or analog extension ports.

**Audio Help User Guide\*\***

Increase productivity by quickly locating the specific features you are seeking at the simple touch of the help button on the telephone. The audio help feature guides you through the many features of the k3 with intuitive audio voice prompts, eliminating valuable time spent searching through manuals.

**Caller ID\***

See who is calling every time with caller ID information displayed on telephone sets.

**Answering Machine Emulation\***

Listen to a caller leaving a voice message with the ability to retrieve the call while the message is being left.

**Call Recording Capabilities\***

With the optional voicemail system, all calls can be recorded and stored in your personal voice mailbox.

\* Available as an option.

\* Available with optional hard drive voicemail.
