SPRINT DIGITAL VOICE

Sprint Digital Voice is an ideal voice mail solution for small- to medium-size businesses. This affordable voice processing adjunct is one self-contained unit, so there are no moving parts. It is easy to install, low maintenance and meets the reliability and quality requirements of the small-office market.

The flexibility of Sprint Digital Voice enables compatibility with any Protegé® telephone system. Available in two or four ports, this system provides 3.5 hours of voice storage and a maximum of 50 user mailboxes.

If you're looking for a cost-effective voice mail system that is dependable, easy to install and is low maintenance, Sprint Digital Voice is for you.

- Solid State Technology
- External Power Supply
