

**allworx**<sup>®</sup>  
communications without compromise

## Sophisticated system keeps you connected to customers

Unlike many competitors' systems, Allworx gives you the luxury of choice in telephone technology. Allworx systems supports both analog and VoIP phones — in any combination. That means you can adapt new technology all at once, or build up gradually. Either way, you're implementing the solution at your own pace, without compromising.

How do you decide whether to stay with analog or switch to VoIP? We can help you determine which phone is right for you.

User features: • Full PBX & Key System • Presence Management • Multi-site Integration • Unified Messaging • Voice Over Internet

## Experience a New Level of Sales, Service & Support!
